ENVIRONMENTAL SCIENCE CENTER

Learn About Your Child's Recent Field Trip to the Beach!

What did your child do?

Your child learned about plants and animals they might meet at Seahurst Beach. They also used their field guides to fill in cool facts about the organisms on the beach.

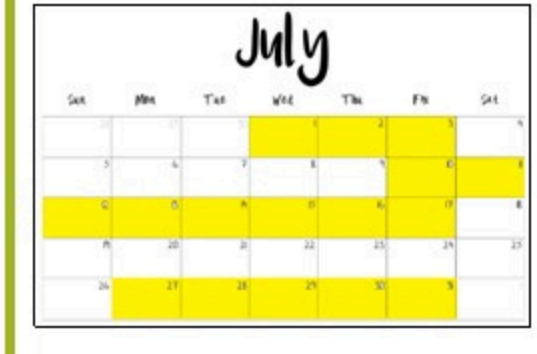
They then visited Seahurst Beach and saw organisms that are normally underwater—uncovered by the low tide! During the field trip, your child made observations, discovered new organisms, and became official Beach Heroes!

Want to visit the beach at low tide?

Go to https://envsciencecenter.org/learn/

- There are many days this summer where the tide will be low during the day (see the highlighted dates in the calendars on the right). Go to our website and look up the **TIDE CHART** for more details on times!
- Download the **MARINE LIFE IDENTIFICATION GUIDE** to help with your discoveries.

And remember to be beach **STARS** when you visit!!



Your child's experience was made possible by the generous gifts of people just like you! Funding also comes from:

KING COUNTY FLOOD CONTROL DISTRICT

Green / Duwamish & Central Puget Sound
MAKING OUR WATERSHED FIT FOR A KING

Port of Seattle

This project was partially funded by a South King County Fund Environmental Grant from the Port of Seattle.
